Outbooks Newsletter - May 2019

Director's Preface

The highlight of this month has been Accountex 2019.
We have been busy answering queries and engaging with firms we met at the event, several of them converting into leads. And hence we decided to delay the newsletter this month.

Accountex, held from1-2 May 2019, is a 2-day conference and expo bringing together over 8,000 accountancy and finance professionals. It is a unique opportunity to hear from industry leading speakers, discover 100's of new products and services and network with your peers. Accountex is a few days each year where accountants stop focusing on immediate client needs and focus on what their practice/business should be delivered in the future

Accountex witnessed participation from big established brands, as well as budding start-ups with innovative accounting technology and business solutions. The informative seminars on accounting best practices, Brexit, cybersecurity, and MTD, as well as keynote speakers from renowned firms in the accounting domain, were just great!
We exhibited at Stall 220 with a 4 person team and saw an overwhelming response from Accountants from companies small and big. It was a brilliant experience interacting with everyone and the feedback and knowledge of new business problems that we took back home, will help us create new solutions and help your business further.
Thank you Accountex! And looking forward to more events and programs to enable businesses and individuals with the knowledge and inspiration required to thrive in today's fast-paced accounting and finance domains. We thank one and all, whom we had a chance to interact with at Accountex.

For any questions, we're just a mail or call away. Find out how we can help you close the gap between where you are, and where you want to be.

Amit Agarwal
Managing Director, Outbooks UK
