<b>20+</b> Software expertise	<b>&gt;1,000+ hours</b> Trainings provided	ISO 27001:2013 (ISMS) GDPR compliant IEC Registered Xero, QBO Certified

Another year has passed by and Outbooks is now almost a decade old! Where we started to where we are today has been quite an interesting journey. We've learnt so much and are at the top of our game and yet so much to learn still.

Throughout 2019 we talked about Brexit, MTD, IR35, and General Elections. Political instability and uncertainty in financial regulations plagued us. 2020 on the other hand promises 'Certainty' and a way forward. The accounting industry is showing positive growth patterns. The software and the processes that are coming in are only aiding accountants to do better. Stricter regulations and digitization is helping clients be more organized, in turn, helping accountants in being more accurate and quicker in their work, without increasing the work hours. The changes happening are bringing in more work and the trend should continue through the year.

As a new year's resolution, we have decided to publish more content to help accountants do better in the way they work. We want to give out as much as we can to help accountants grow their practice. And we appreciate all your suggestions on ways for us to do so.

Overall, 2019 was a great year for us and our clients! They grew leaps and bounds and so did we! Today we stand at 80+ active clients with positive traction for our services amongst existing clients & the accounting industry in general. Looking forward to strengthening relationships and building new ones! Cheers to 2020! Have a good one all of you!

**Thanks**

**Amit Agarwal**

**Managing Director, Outbooks UK**

## Tax season advice

Tax return season is kicking in! Clients have become more demanding than ever! We would advise you to be proactive and plan filing returns in advance, to and connect with your clients to prepare for the tax return in advance to avoid any last-minute rush and delays.

Make sure to give them a cut-off date for accepting work such that you are able to do your job calmly and accurately. If you're already outsourcing to us, let us know how much work are you expecting so that we can also plan better.
