

THIS NEW YEAR
EXPLORE NEW STRATEGIES TO
GROW YOUR PRACTICE!

Outbooks Newsletter - January 2021

New year, new hopes, new reforms and new strategies!!

The year 2020 has been a roller coaster ride. 2020 began with a nationwide lockdown due to the pandemic outbreak but as we stepped into the last month of the year, Margaret Keenan from Coventry who received the first Pfizer COVID-19 vaccine shot gave **new hopes** to billions of people around the world as we step into the **new year**.

Also, the year 2020 has undoubtedly been a tough walk for Accountants, however, it has also made business owners realise that they are more than just number crunchers for them. With the rigorously changing government reforms in 2020, Accountants still have 2021 to test the resilience of the professionals.

Brexit being the **new reform** in 2021, Accountants will sense the Brexit effect through their clients. The UK not being a single market anymore adds more work on the accountants' shoulder. They will play a crucial role in determining policies for their clients. More and more Accountants need to suit-up for Advisory roles, supporting, planning, predicting, managing and growing their client's working capital.

Accountants have enough on their hands but the light seems to be shining brighter as the new year dawns. So what are the **new strategies** that you as an Accountant are looking forward to testing out this year?
