

## Outbooks Newsletter - October 2020

The UK Government has been proactively trying to turn on the storm for businesses, caused due to the ongoing pandemic. In its most recent effort, the UK Chancellor, Rishi Sunak announced that the Autumn Budget 2020 has been scrapped out, following the announcement of a Winter Economy plan to help secure the economy and protect jobs.

The key highlights of the newly announced Winter Economy Plan include:

- Job Support Scheme,
- SEISS grants,
- 'Bounce Back Loan' upgraded to 'Pay as you Grow' Scheme
- Tax deferrals
- VAT changes

There's no doubt how well the UK Government has been supporting businesses during these tough times. The downside, however, is that Accountants have to balance out the rising client needs with their team strength without overburdening their team. And adapting to the new normal has never been an easy task especially when businesses are so dependent on the skills and knowledge of a single department, i.e., Accounting.

Everyone has a part to play during these times of crisis and only then can we come out with minimal damage. Our role has always been laser-focused which is helping Accountants in the UK overcome the challenges of the rising of the competitive Accounting ecosystem.

So, in case you want to unload any of your Accounting and Bookkeeping tasks, we are offering a 10-hour no obligation free trial as a part of our special COVID offer to help for Accountants caught in the middle of the chaos.

Feel free to contact us in case you are looking for helping hands and we will be glad to offer any help.
